About Me

Experienced React Native Engineer with almost three years in designing, developing, and optimizing cross-platform mobile applications. Proficient in converting designs into high-quality code, integrating APIs, and collaborating with cross-functional teams to deliver robust and scalable applications. I am skilled in HTML, CSS, JavaScript, TypeScript, and various frameworks.

Professional Experience:

- **Design and Development:**

  - Designed and developed mobile applications for iOS and Android using React Native.
  - Built reusable components and integrated RESTful APIs and third-party libraries to enhance app functionality.
  - Debugged and resolved performance issues, reducing app load time.

- **Collaboration and Teamwork:**

  - Collaborated with designers and project managers to ensure seamless implementation of features.
  - Participated in agile development processes, including sprint planning and daily stand-ups.

- **Code Quality**

  - Conducted code reviews and wrote unit and integration tests to maintain code quality and ensure functionality.

- **Reporting and Documentation:**
    - Created detailed technical documentation and reports for project stakeholders.
    - Reported progress, challenges, and milestones to senior management and team members.
    - Documented best practices and development guidelines to facilitate team knowledge sharing.

- **Continuous Improvement:**
    - Stayed up-to-date with industry trends and best practices to continuously improve development processes.
    - Conducted regular training sessions and workshops to share knowledge with the team.

Education

Bago University

- First Year History Specialization (Distance)

Bright Technology Myanmar

- Web Essential Course

Data Land Technology

- WDF (Web Development Foundation)
- BCJ-1 (Bootstrap, CSS, JavaScript - Batch 1)
- JQuery
- CSS Animation
- MYSQL Database Batch - 1
- JS L2 Batch - 3 (JavaScript Small Projects)

KMD Institute

- Level4 Diploma In Computing (L4DC) - NCC Education (UK)

Experience

IT Assistant
Tech Paradise - Bago (Myanmar)
2018 - 2020

I worked as an IT assistant in Tech Paradise for two years. I assisted in the installation, operation, and maintenance of computer networks and communication systems. I provided technical support for hardware and software issues, ensuring minimal downtime and maximum efficiency. I conducted regular system updates and backups to ensure data integrity and security. I collaborated with team members to troubleshoot and resolve network connectivity issues. I managed the inventory of IT equipment and coordinated with vendors for procurement and repairs.

Senior Full Stack Developer
Yoon Han Thar - Yangon (Myanmar)
2022- February 2024

I developed web applications using Next.js and mobile applications using React Native. I managed and led various projects as a project manager, ensuring timely delivery and adherence to client specifications. I negotiated with clients to define project requirements, scope, and timelines, fostering strong client relationships. I built and maintained reusable components for future use. I collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality applications. I conducted code reviews and implemented best practices to maintain high standards of code quality and performance. I stayed up-to-date with the latest industry trends and technologies to continuously improve development processes.

React Native Developer (Remote)
uab Bank - Yangon (Myanmar)
1st April 2024 - currently working

I'm currently working as a React Native Developer at uab Bank. I developed new features for uabpay and other related applications, including social features and restaurant reservations. I upgraded the React Native version of uabpay, enhancing app performance and compatibility. I focused primarily on implementing and optimizing social features within the app.

Key contributions to social features include:
- Implemented infinite scrolling for a seamless user experience.
- Developed dynamic data rendering for each post, ensuring real-time updates.
- Implemented data encryption and decryption to ensure user data security.
- Enhanced video buffering capabilities for smooth video playback.

Expertise

- Management Skills
- Creativity
- Innovation
- Critical Thinking
- Leadership
- Working Under Pressure
- Excellent Communication

Programming Languages

- JavaScript, TypeScript

Frameworks, Libraries and Others

Frontend

- React.js
- React Native
- Next.js
- Redux Toolkit
- React Query
- TailwindCSS
- Bootstrap
- Other UI libraries

Databases & Object Relational Mapping

- MYSQL
- Mongodb
- Prisma

Backend

- Node.js
- Express.js

Version Control System

- Git
- Github

Hosting

- Cpanel (z.com and A2hosting)
- Vercel

Current Learning

- Java
